

My name is Gracie Lazenby, and I'm the Community Liaison Officer for Warwickshire on Severn Trent's new Mains Renewal programme. As part of this initiative, we'll be replacing 870 miles of mains pipe across our regions to help secure a reliable water future and invest in our communities for generations to come.

Over the next five years, we'll be working across all nine of our regions. One of the first areas identified for renewal is in Warwickshire, specifically within the Preston Bagot, Pinley Green, and Lowsonford area, where the existing mains have been showing signs of age and causing bursts and supply issues.

We understand that this work may cause disruption, particularly due to necessary road closures, so we wanted to share the detail with you.

Project Timeline & Locations:

We'll begin at the Pinley Green junction on **Monday 11 August 2025**, working our way along Pinley Green to Holly Head Farm, then onto Holywell, and finishing at the High Cross/Back Lane junction by **February 2026**. This work will be carried out under a **rolling road closure**, meaning once a section is complete, the team will move on to the next.

Following this, we'll continue work in the area on the following roads (please see the attached map for details):

Road Name	Traffic Management
Back Lane	Rolling Road Closure
Narrow Lane / New Road	Rolling Road Closure
Lapworth Street	Rolling Road Closure
Rookery Lane / Preston Fields Rd	Rolling Road Closure
Henley Road	Rolling Road Closure
Edge Lane / Preston Road	Rolling Road Closure

Community Engagement:

We want to ensure all residents have the opportunity to ask questions and share any concerns. To support this, we're hosting a **community drop-in session** at **Lowsonford Village Hall** on **Monday 28 July**, from **4:00pm to 6:30pm**.

For those unable to attend in person, we're also offering **two digital drop-in sessions** on **Thursday 31 July**:

- **12:00pm – 1:00pm**
- **5:00pm – 6:00pm**

Letters and emails have been sent to residents with full details and invitations to these events.

If you'd like more information or wish to attend one of the digital sessions, please let me know and I'll add your name to the list. You're also very welcome to join us in person on the 28th.

I look forward to hearing from you.
